

Tummy trouble? Blood in your wee? Just speak to your doctor

Speak to your doctor if you have had tummy trouble for 3 weeks or more. This means:

- your tummy feels uncomfortable or you have any pain

- you have diarrhoea or runny poo

- or, you see blood in your wee, even just once

It is probably nothing serious, but if it is cancer, finding it early makes it easier to treat.

Your doctor will want to see you.
